SUMMARY

I am an aspiring Android Developer with a strong foundation in Kotlin programming and mobile app development, looking for an entry-level opportunity to leverage my skills and contribute to innovative projects. I have a solid academic background in computer applications, complemented by hands-on training in Android development, showcasing my dedication and passion for technology

EDUCATION

Bachelor of Computer Applications (BCA)

Sarala Birla University

08/2022 - 06/2025 Ranchi

Senior Secondary (XII)

ANNADA COLLEGE HAZARIBAGH

08/2020 - 06/2022 Hazaribagh

Secondary (X)

Appreciable Public School

08/2018 - 06/2020 Ranchi

TRAINING / COURSES

Android App Development Training (Internshala)

- 8-week certified online training Covered: Jumpstart Your Android Adventure, Kotlin Bootcamp, Jetpack Compose and many more
- Scored **85%** in final assessment

Complete Kotlin Development Masterclass

Learned Kotlin fundamentals to advanced concepts. Taught by Catalin Stefan.

SKILLS

Kotlin Jetpack Kotlin Retrofit Coil MVVM

Firebase Room Database Android

PROJECTS

Self Discover App

03/2025 - 04/2025

A productivity and wellness Android app

- Developed a productivity and wellness Android app that helps users build habits through daily to-do lists and guided breathing meditation sessions
- Implemented user authentication using Firebase Authentication for secure and seamless sign-up/login
- Used Room Database for efficient local storage and real-time tracking of to-do tasks
- Designed a modern and intuitive UI using Jetpack Compose, focusing on usability and clean user experience
- Followed MVVM architecture for better code structure, scalability, and testability

KEY ACHIEVEMENTS

CODE'NCLONE Participation

Successfully participated as a Student Participant in the CODE'NCLONE one-day coding competition organized by the Coding Club
